CABLE MANAGEMENT

BLIT Rigid PVC Conduits

Durable rigid PVC conduits engineered for dependable cable protection, structured wiring, and long-term durability.

KEY PRODUCT FEATURES

- ✓ **Durable Rigid PVC Construction**
- ✓ **Reliable Cable Protection**
- ✓ **Organised Wiring Installation**
- ✓ **Multiple Size Options**

Manufactured to strict British Standards, ensuring high durability, verified ratings, and dependable operation.

PRODUCT OVERVIEW & ENGINEERING DESIGN

BLIT Rigid PVC Conduits deliver superior crush and impact resistance for concealed and surface-mounted electrical installations. Resistant to corrosion, moisture, and chemical attack, they ensure long-term conductor safety in concrete, masonry, and open runs.

TECHNICAL SPECIFICATIONS

TECHNICAL PARAMETER	SPECIFICATION & RATING VALUE
Material Composition	High-Impact High-Density Virgin uPVC
Impact & Crush Resistance	Heavy-Duty Mechanical Classification (BS EN 61386-21)
Fire Performance	Non-Flame Propagating, Self-Extinguishing Grade
Corrosion Resistance	100% Rust-Proof & Inert in Concrete / Mortar Environments
Outer Diameters	20mm, 25mm, 32mm Outer Diameters (3.0m Standard Length)
Bending Capability	Cold Bending with Standard Internal Bending Springs
Wall Structure	Uniform Heavy-Gauge Extruded Wall Thickness
Recommended Applications	Concealed Wall Chasing, Concrete Floor Screeds, Exposed Surface Conduit
