CABLE TERMINATION

BLIT Pin-Type Cable Lugs

Pin-type cable lugs designed for secure terminal block connections, precise fitment, and dependable electrical contact.

KEY PRODUCT FEATURES

- ✓ **Pin-Type Connection Design**
- ✓ **Durable Construction**
- ✓ **Secure Crimp Termination**
- ✓ **Multiple Size Options**

Manufactured to strict British Standards, ensuring high durability, verified ratings, and dependable operation.

PRODUCT OVERVIEW & ENGINEERING DESIGN

BLIT Pin-Type Cable Lugs provide reliable, vibration-proof terminations for screw-clamp and spring-clamp terminal blocks. Precision-manufactured from high-purity copper with serrated barrels for optimal pull-out tensile grip.

TECHNICAL SPECIFICATIONS

TECHNICAL PARAMETER	SPECIFICATION & RATING VALUE
Pin Material	High-Conductivity Electrolytic Copper
Surface Finish	Bright Electro-Tin Plated for Oxidation Resistance
Insulation Sleeve	Available in Uninsulated or Colour-Coded Vinyl / Polyamide
Barrel Interior	Serrated Internal Bore for Enhanced Conductor Tensile Grip
Conductor Sizes	0.5 mm² to 95 mm² Conductor Cross-Sections
Pin Profile	Solid Cylindrical Pin for Contactors & Clamp Terminals
Standards Compliance	Conforms to DIN 46231 & British Standards
Recommended Applications	Control Panels, Relays, Automation PLCs, DIN Rail Terminal Blocks
