CABLE MANAGEMENT

BLIT Heavy-Duty PVC Trunking

Heavy-duty PVC trunking designed for organised cable routing, reliable protection, and clean surface installation.

KEY PRODUCT FEATURES

- ✓ **Heavy-Duty PVC Construction**
- ✓ **Organised Cable Routing**
- ✓ **Strong & Secure Adhesion**
- ✓ **Clean & Professional Finish**

Manufactured to strict British Standards, ensuring high durability, verified ratings, and dependable operation.

PRODUCT OVERVIEW & ENGINEERING DESIGN

BLIT Heavy-Duty PVC Trunking provides clean, professional surface routing and mechanical concealment for electrical and data cables. Made from high-grade virgin uPVC with self-extinguishing fire properties and precision snap-on lids for effortless cable accessibility.

TECHNICAL SPECIFICATIONS

TECHNICAL PARAMETER	SPECIFICATION & RATING VALUE
Material Composition	Premium Virgin Rigid uPVC (Unplasticized Polyvinyl Chloride)
Flammability Standard	Self-Extinguishing, UL 94 V-0 Rated (Non-Flame Propagating)
Lid Latching Mechanism	Precision Interlocking Snap-On Tight-Fit Lid
Adhesive Mounting Option	High-Bond Industrial Double-Sided Foam Tape Backing
Operating Temperature	-5°C to +60°C Service Temperature Range
Standard Lengths	2.0 Metres / 2.9 Metres Standard Industry Lengths
Chemical Resistance	Resistant to Acids, Alkalis, Grease, and Household Solvents
Recommended Applications	Commercial Offices, Surface Cable Concealment, Residential Refurbishment
